

FITNESS BUDDY

SCREENSHOT PREVIEW

SUBTITLE : Agentic AI Project using IBM Cloud Lite (Watsonx Assistant)

NAME : Meka Hamsa Gayathri

BRANCH : CSE

COLLEGE : Presidency University, Bengaluru

LAUNCHING WATSONX ASSISTANT

“ THIS SCREEN SHOWS THE WATSONX ASSISTANT LAUNCHED FOR FITNESS BUDDY ”

The screenshot displays the IBM Cloud console interface for managing Watson Assistant services. The browser address bar shows the URL: `cloud.ibm.com/services/conversation/crn%3Av1%3Abluemix%3Apublic%3Aconversation%3Aau-syd%3Aa%2F6683885fd4b4428dfe5d0ee858d0146%...`. The page title is "watsonx Assistant-j4" with a green status icon and an "Add tags" link. The left sidebar contains a "Manage" section with links for "Service credentials" and "Plan". The main content area is titled "Start by launching the tool" and features a prominent blue "Launch watsonx Assistant" button. Other links include "Getting started tutorial" and "API reference". On the right, a "Plan Lite" section shows an "Upgrade" button. Below the main content, a "Credentials" section displays the API key and URL, both masked with dots and a scrollbar, with "Download" and "Show credentials" links.

ASSISTANT EDITOR – DESIGNING THE CONVERSATION FLOW

“INTERFACE USED TO BUILD THE CONVERSATIONAL FLOW FOR FITNESS BUDDY”

The screenshot displays the IBM Watson Assistant Editor interface for the 'Fitness Buddy' action. The browser address bar shows the URL: `au-syd.assistant.watson.cloud.ibm.com/crn%3Av1%3Abluemix%3Apublic%3Aconversation%3Aau-syd%3Aa%2F6683885fd4b4428d4fe5d0ee...`. The interface includes a top navigation bar with 'IBM watsonx Assistant', 'Lite', 'Upgrade', and 'Fitness Buddy' tabs. The main editor area is divided into three sections: 'Conversation steps', 'Display name', and 'Add example phrases'.

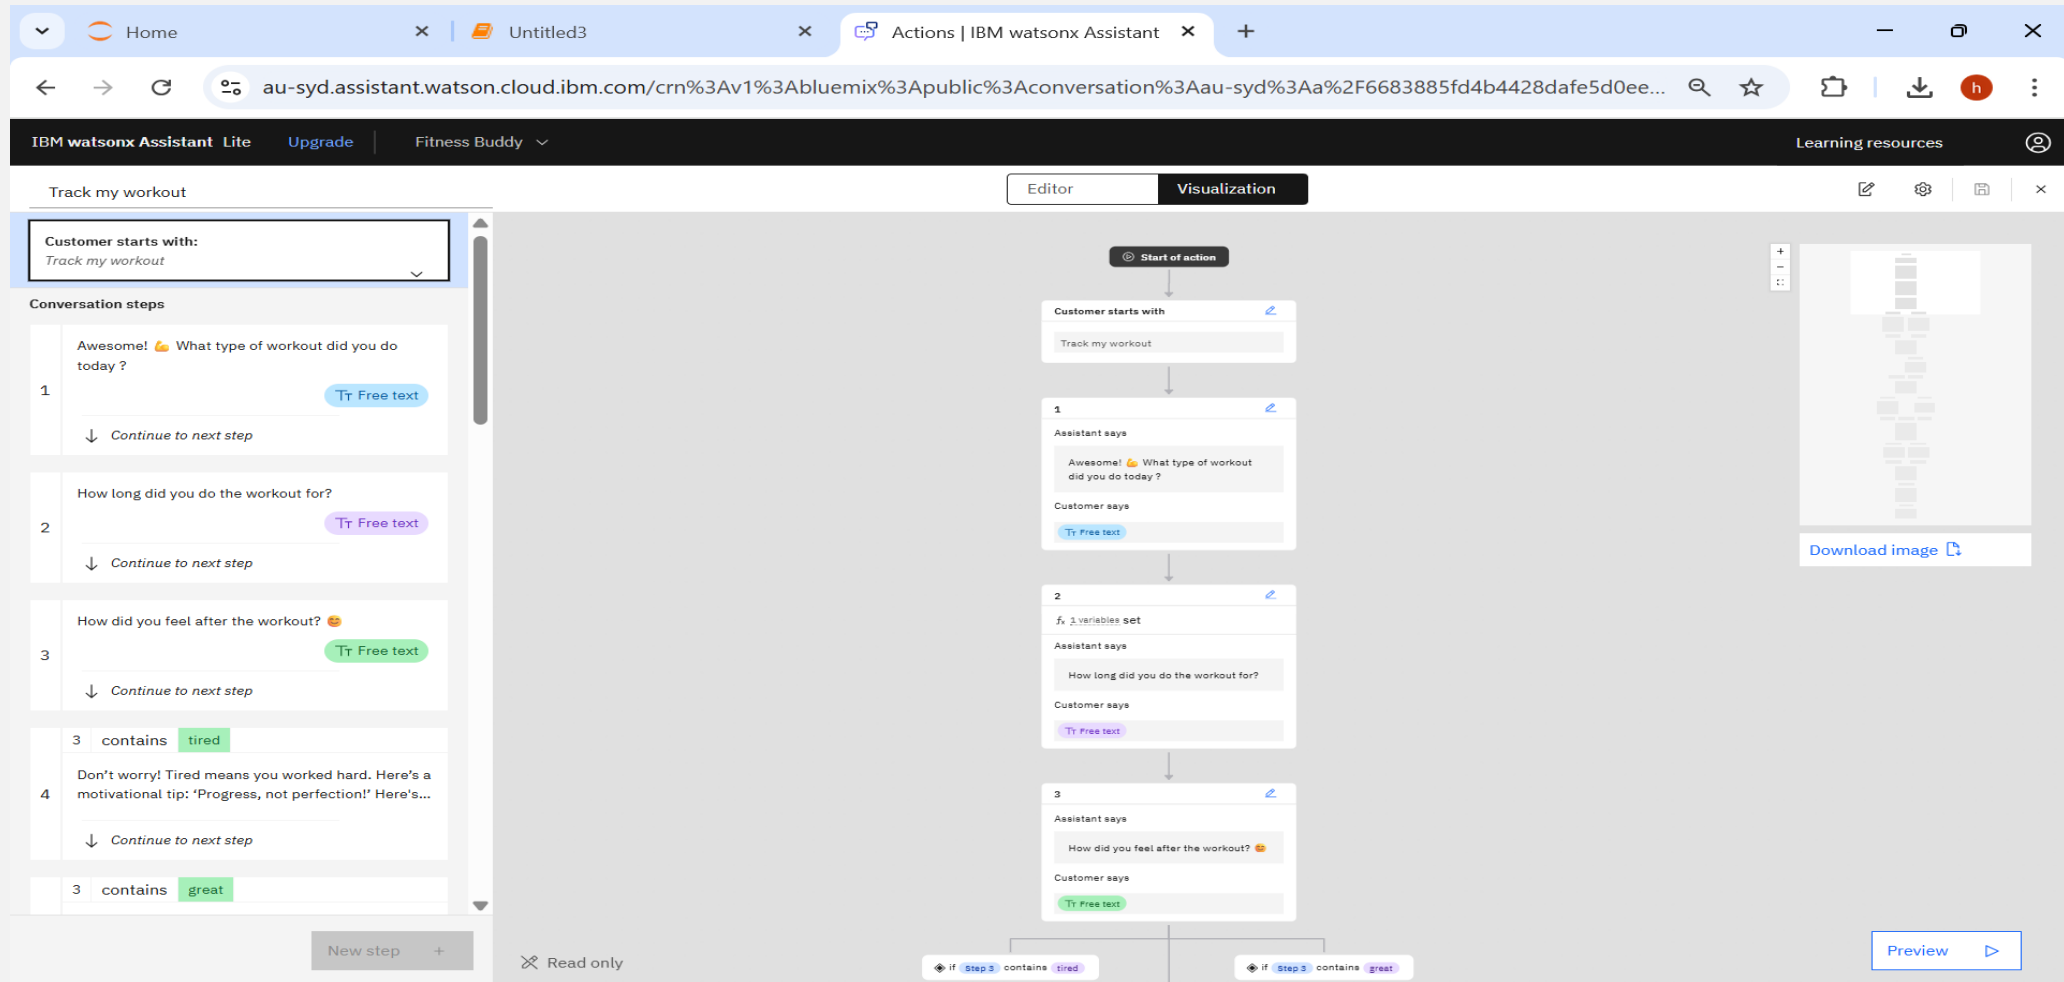

Conversation steps: This section shows a sequence of steps for the 'Track my workout' action. Step 1 is 'Awesome! 🍌 What type of workout did you do today?' with a 'Free text' input field. Step 2 is 'How long did you do the workout for?' with a 'Free text' input field. Step 3 is 'How did you feel after the workout? 😊' with a 'Free text' input field. Step 4 is 'Don't worry! Tired means you worked hard. Here's a motivational tip: 'Progress, not perfection!' Here's...' with a 'Free text' input field. A 'New step +' button is located at the bottom left.

Display name: This section allows setting a display name to overwrite the action title. The current display name is 'Get help on ACME bill'.

Add example phrases: This section allows adding phrases that a customer might use to start the conversation. The current phrases are 'Log my fitness progress', 'Would you like me to track today's workout for you?', and 'Track my workout'. The total number of phrases is 3.

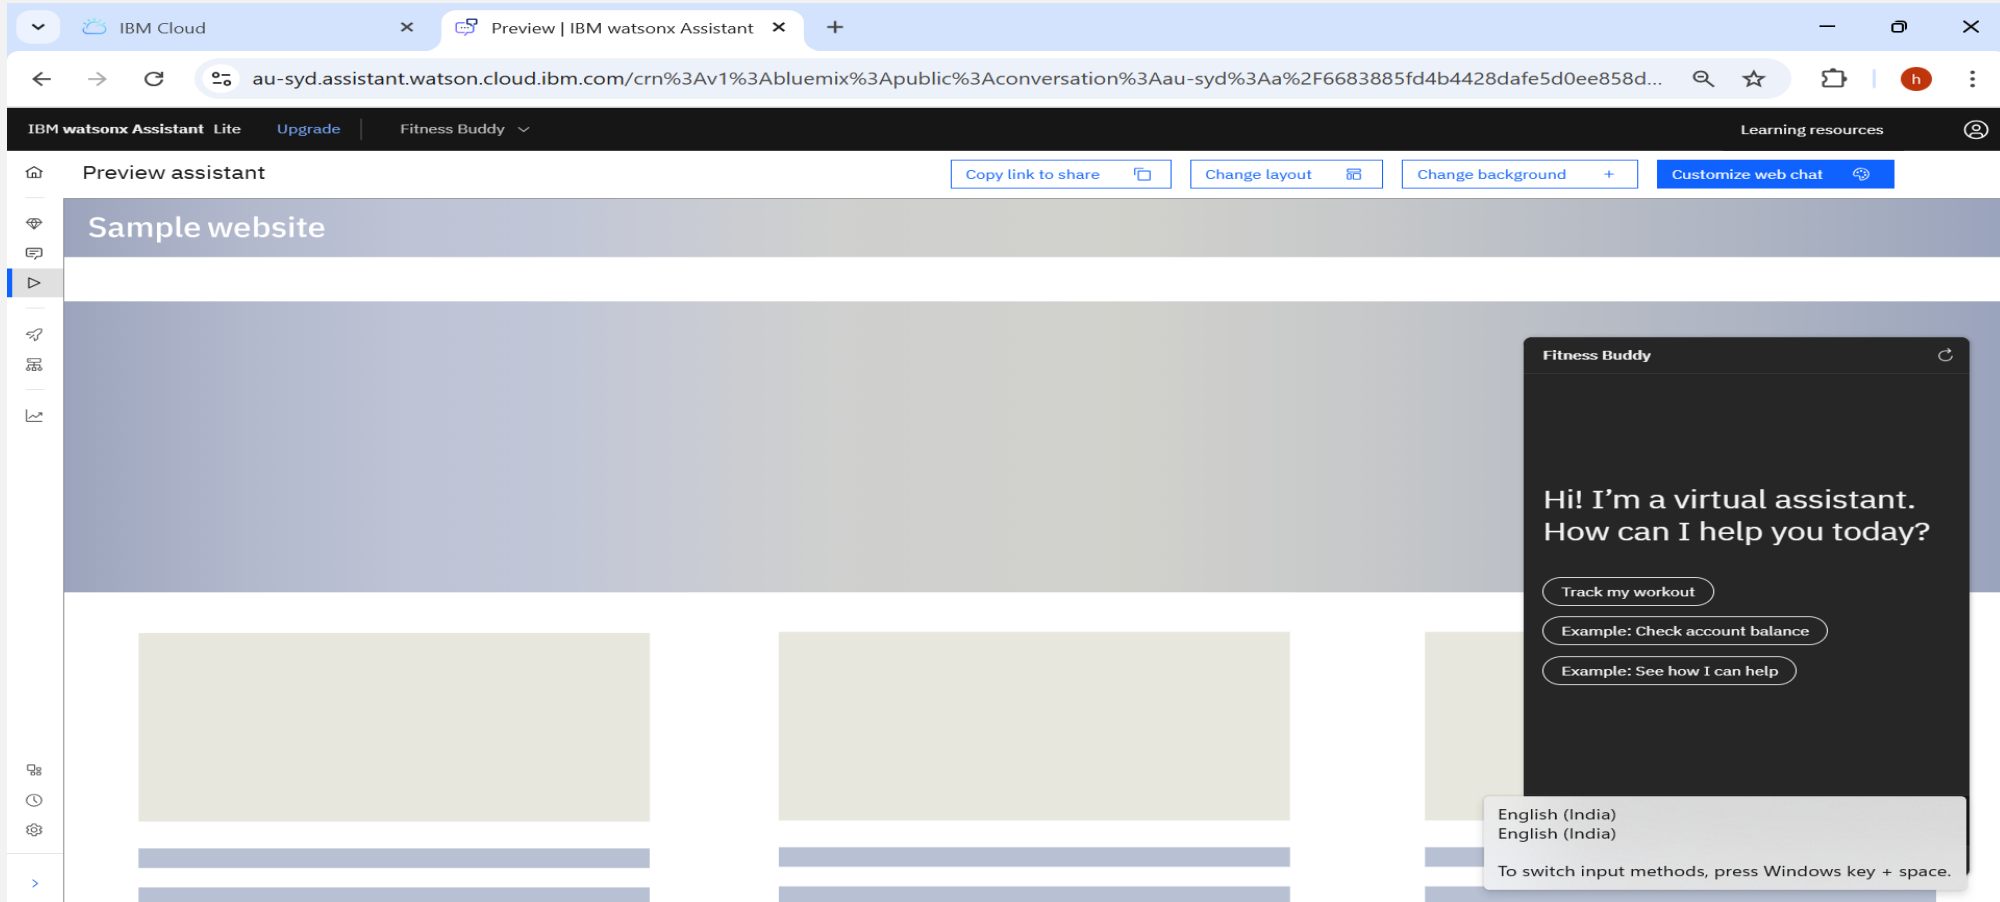

Preview: A preview window on the right shows the conversation flow. It starts with a user message 'Greet customer [default]' at 5:49 PM, followed by a system response 'Welcome, how can I assist you?'. At 5:50 PM, the user says 'Track my workout', which is recognized by the system. The system then responds with 'Awesome! 🍌 What type of workout did you do today?'.

CONVERSATION FLOW OVERVIEW
